DENTAL ASSISTANT TRAINING

The journey to success begins now.

nextleveldentalcareers.com

Welcome!

Thank you for your interest in Next Level Dental Assistant Training! We're excited to help you launch a fulfilling career in this dynamic field. Here's a little about us:

- **Achieve Your Goals Faster:** Our accelerated 13-week program gets you job-ready in record time.
- **Affordable Excellence:** At just \$3,575, our program is a fraction of the cost of many other schools, making your dental assisting education accessible and within reach.
- **Hands-On Learning:** We believe in learning by doing. You'll get extensive hands-on training and experience, preparing you to assist dentists with confidence from day one.
- **Your Success is Our Mission:** We're more than a school; we're a team invested in your future. From comprehensive training to career support, we'll guide you every step of the way.

Are you ready to transform your life and become a vital part of an ever-growing industry? Visit our website <https://nextleveldentalcareers.com/> to learn more about our program and to start your application.

OUR MISSION

- **Small-School, Big Heart:** Get personalized attention and support in our close-knit classes. We'll know your name, your strengths, and help you reach your full potential.
- **Doctors Who Teach:** Learn real-world skills directly from the dentists leading the practice and their most trusted team of assistants. Get insider tips, trade secrets, and the confidence that comes from hands-on mentorship.
- **No Test Cram Zone:** We train you for a career, not just an exam. Our goal is to equip you with the practical knowledge and experience to thrive as a dental assistant from day one.
- **Join the Fam:** Become part of our supportive community of dental professionals. Build friendships, network with our team, and feel like you belong in this rewarding field.

MEET THE DOCTORS

Dr. Juston Reary grew up in Charlotte, North Carolina and attended school in Philadelphia where he met Dr. Liu. He completed his specialty residency in Houston in 2016 and has been a founding member of TexSmiles Dental since 2018.

Dr. Reary is passionate about mentorship and helping others around him develop and succeed. After interviewing and working with many assistants since beginning private practice in 2016, he believes that a personalized learning environment best supports long-term success. His goal is for Next Level students to find dental assisting to be more than just a job, but a rewarding career.

Dr. Pamela Liu was born in Beijing, China but moved to California when she was seven. After attending college in Massachusetts, she completed dental school in Philadelphia where she met Dr. Reary. They moved to the Houston area in 2013 where she worked in private practice until opening TexSmiles Dental in 2018.

Dr. Liu loves getting to know and teaching dental assistants the skills needed to excel and to set themselves apart in a competitive job environment. She hopes that every Next Level student will take advantage of the hands-on approach and mentorship opportunities available to hit the ground running upon completion of the program.

MEET OUR INSTRUCTORS

EVA GARCIA

Eva brings 19 years of dental industry experience to her role as an instructor. She is dedicated to creating a positive dental experience for patients and takes pride in sharing her knowledge and skills with students. Eva's attention to detail ensures you'll receive top-notch training.

When not teaching, Eva enjoys decorating, spending time with her husband and three children, and watching them play sports.

MARIA SOTO

Maria Ester Soto, a Registered Dental Assistant with over 14 years of experience, brings a wealth of knowledge to her role as a Next Level instructor. She's passionate about patient comfort and mentoring new dental assistants to help them excel in their careers. When not working, Maria enjoys spending time with her family in Pasadena.

WHAT IS A DENTAL ASSISTANT ?

Dental assistants are vital members of the dental healthcare team, providing direct support to dentists and enhancing patient comfort during procedures. The assistant plays an important role in communication among the administrative team, the doctors, hygienists, and, most importantly, the patient.

WHAT DO THEY DO ?

- Preparing patients for treatments and exams
- Assisting the dentist during procedures
- Taking and processing dental x-rays
- Sterilizing instruments and maintaining a clean work environment
- Performing administrative duties

WHY BE A DENTAL ASSISTANT?

The dental industry is not going away and continues to grow as a core healthcare service in the United States. More dental schools are opening to address the shortage of dentists. Therefore, job prospects and potential earnings are very favorable.

In Texas the average starting salary for someone with a two-year degree is \$41,520. Our 13-week program will allow you to earn up to \$50,000 as a well-trained, experienced dental assistant.

Job satisfaction is important. So is work-life balance. A career in dental assisting can give you both in only 13 weeks. Spending your nights and weekends with your loved ones and being part of a dynamic team that helps patients improve their lives is a win-win for everyone.

THERE ARE SEVERAL ASSISTING SCHOOLS IN HOUSTON. WHY CHOOSE US?

We actually care if you succeed. We have heard horror stories of assistants paying a lot of money to be 'taught' by only videos with no hands-on. The instructors are on their phones during class. We are invested in you - we only win if you win.

You will train on real people and get insight from doctors who actually hire assistants. Learn how to put together a resume and cover letter that will get you an interview. Learn how to impress on your interview to get the job you want. We will give you the foundational knowledge to build a long, successful career in the dental field.

Personalized training on your schedule. Many students already have jobs and families when they begin a program. You will learn exactly what you need to know to get your certification and the job you want with minimal disruption to your life. We offer evening classes and a hybrid learning structure to maximize your in-person training.

HOW MUCH IS IT AND WHAT IS INCLUDED?

While some programs are more than \$10,000, we offer it to our students at four monthly payments of only \$875.

You receive:

- Small classes capped at 6 students
- Personalized, individual training
- 13-week hybrid learning program with online lectures and weekly, in-person training in the evening
- 81 hours of lecture and lab
- 50-hour externship in a dental practice
- preparation for your RDA certification exam
- All books and materials
- Basic Life Support (BLS) Training
- Insight from assistants with extensive experience and a doctor's perspective
